

Clark Forklift

Clark Forklift Forklift Training - At this time, there are at least 350,000 Clark forklifts performing globally, and in excess of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific items built for 20 exclusive designs of forklifts and automated equipment. Your regional Clark Seller is your total source for availability of all your components needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark has a relentless mission to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Lean Manufacturing

Clark has selected the system of "Lean Manufacturing" at all of its assembly plants because this technique is extremely economical and permits minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective methods for production plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Engine Design

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their merchandise while minimizing costs. The new value engineering agenda combines innovative product development and provides superior consumer support and service within the industry.
