Oshawa Manlift Ticket

Oshawa Manlift Ticket - The Elevated Platforms and Manlifts Certification program helps to provide the necessary training on the work practices, safe operating procedures, regulations and rules regarding the everyday activities for the operators of this machine. The course has been designed for individuals who are actively involved in these activities or individuals who have a basic understanding of this equipment.

In the last couple of decades, manlifts and aerial platforms have become a common sight on construction job sites and in industrial maintenance applications. These machinery provide an easy way to lift workers near what must be done on a stable platform apparatus, allowing employees to carry out tasks with greater safety and comfort rather than being perched on top of ladders or scaffoldings.

The manlift is like other industrial devices in that they are safe when used properly. As they lift workers above floor or ground level, accidents could take place easily and this might lead to serious fatalities or injuries for both the operators of the manlift as well as whoever passerby who may be unlucky enough to be standing below.

There are various kinds of manlifts. Most fall into 1 of 2 categories: the articulating boom lift, which has the capability of both vertical and horizontal movement and the scissors lift, that is capable of moving up and down.
