Oshawa Forklift Training Courses

Oshawa Forklift Training Courses - When forklift operator safety training is tailored for illiteracy, training time is reduced by 50%. Train the trainer, forklift training certification and lift-truck operator driver safety training evaluation programs provide regulation-compliant, thorough training in industrial-powered fork truck utilization and safety. Lift truck pedestrian safety is likewise offered.

We have a highly competent group of expert trainers to be able to make sure that your workers are well-trained. The certification is delivered on site by one of our licensed instructors. Those training will learn how to spot possible dangers and perform safety inspections necessary for the safe and effective use of a powered industrial lift truck.

Forklift Training Guidelines
It is essential that all workplaces making use of forklifts have the checklist below or one equivalent on the premises. If all of the safety rules are being followed, each of these questions must be answered with a "yes". A "no" to whatever question indicates a procedural weakness which may cause damage to equipment, accident or injury.

1) Is the pedestrian traffic separated from the forklift working area?
2) Is access to forklift areas by pedestrians restricted by a barrier?
3) Are pedestrian walkways provided and well marked?
4) A sign is visibly clear stating a "lift truck in operation"?
5) Are mirrors for pedestrians and drivers provided at blind spots?
6) Are alterations to daily lift truck schedules communicated to all affected staff?
7) The lift truck tires being utilized are suitable for all operating surfaces?
8) Lift truck seatbelt is being used?
9) The forklift seat is in good condition?
10) Is a regular forklift maintenance schedule adhered to?
11) Is a yearly forklift certification and inspection carried out?
12) Is the kind of forklift appropriate for the tasks?
13) Is there a load chart that is readable on the forklift?
14) Do all operators understand how to read the load chart?
15) Does the chart list the safe capacity for various attachments and uses?
16) Do the forklift warning devices work properly?
17) The speed operating control device is secured correctly?
18) Is overhead cage fitted properly on the forklift?
19) Do the operators of the forklift have certifications to operate the machine?
20) Speed limits and warning signs are being observed?
21) The operators have current training for the forklifts being used?
22) Do operators know their responsibilities to report any equipment damage and lift truck accidents?
23) Is the pre-test checklist reviewed on a daily basis prior to the machinery being used?
